

SOFT SKILLS

KIT provides quality education to make students a complete individual in every aspect of life. Soft skills are character traits essential in all professions. In essence, they are essential for success of a person not only in personal life but also in the workplace leading to company's success. The term soft skills covers a wide range of skills as diverse as Leadership Skills, Teamwork, Communication Skills, Problem-Solving Skills , Work Ethic, Flexibility/Adaptability, Interpersonal Skills. These skills make it easier to form relationships with people, create trust and dependability and lead teams. As Soft skills are used every day, developing these soft skills helps students to accelerate their career progression. Every student at KIT finds exhaustive opportunities for enhancing employability skills to compete in the global arena. All the students are given soft skills training enabling them to contribute to a variety of activities.
